REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose an apparatus for replacing a spent fluid in a power steering system of a vehicle, the apparatus comprising a fluid receiving container for receiving the spent fluid; a replacement fluid container holding a replacement fluid; a fluid pump; a pressure actuated valve; and a means for conducting fluid, the components arranged such that when the spent fluid is pumped from the power steering system into the fluid receiving container by the fluid pump, air pressure in the fluid receiving container rises opening the pressure actuated valve and forcing the replacement fluid from the fluid receiving container into the power steering system to replace the spent fluid therein, the pressure actuated valve being set to open only after a selected percent of the spent fluid has already been removed from the power steering system, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
